## Shelf Life Statement

Dear Valued Customer,

Please be advised that all Diatomaceous Earth and Perlite products produced under the brand names Celatom®, CelaWhite™, CelaPerl®, PurifiDE®, Transcend®, Transcend® Brew, CelaBrew®, Floor-Dry™, Solid-a-Sorb®, OptiSorb®, Axis®, Play Ball!®, Dialose® and Floc do not have a limited shelf life and therefore any reference to an expiration date is inappropriate.

Since these products are primarily non-reactive silica-based inorganics, they will not degrade or change during storage. We would suggest, though, that in accordance with good manufacturing practices that the products be stored in a dry place, away from contaminants that could impart odors or flavors to the products, or that could damage the packaging.

With Best Regards,

Xochitl Gutierrez  
Regulatory Compliance Supervisor
